

**Top Evidences  
Against the Theory of  
Evolution**

**Rev. Paul Varghese**

# TOP EVIDENCES AGAINST THE THEORY OF EVOLUTION

Then God said, "Let us make man in our image, in our likeness" (Genesis 1:26)

## *TOP EVIDENCES*

- There are no transitional links and intermediate forms in either the fossil record or the modern world. Therefore, there is no actual evidence that evolution has occurred either in the past or the present.
- Natural selection (the supposed evolution mechanism, along with mutations) is incapable of advancing an organism to a "higher-order".
- Although evolutionists state that life resulted from non-life, matter resulted from nothing, and humans resulted from animals, each of these is an impossibility of science and the natural world.
- The supposed hominids (creatures in-between ape and human that evolutionists believe used

to exist) bones and skull record used by evolutionists often consists of 'finds' which are thoroughly unrevealing and inconsistent. They are neither clear nor conclusive even though evolutionists present them as if they were.

- Nine of the twelve popularly supposed hominids are actually extinct apes/ monkeys and not part human at all.
- The final three supposed hominids put forth by evolutionists are actually modern human beings and not part monkey/ ape at all. Therefore, all twelve of the supposed hominids can be explained as being either fully monkey/ ape or fully modern human but not as something in between.
- Natural selection can be seen to have insurmountable social and practical inconsistencies.
- Natural selection has severe logical inconsistencies.
- The rock strata finds (layers of buried fossils) are better explained by **a universal flood** than by evolution.

## ***Bias towards Evolution***

---

Evolutionists often have come forth and admitted their own and their colleagues' extreme degree of bias in this matter. Some have admitted that their approach has not been scientific or objective at all. Many admit to the severe lack of evidence for evolution and that they have accepted their

conclusions only because they are unwilling to accept that evolution never occurred. Many think science has proven it to be a `fact' and, therefore, it must be accepted. In recent years, a great many people having finally been persuaded to make a real examination of the problem of evolution, have become convinced of its fallacy **and are now convinced anti-evolutionists."**

**God created** the amazing human body a trillion times superior than a super computer! The human body is made up of trillions of cells. Cells of the nervous system, called nerve cells or neurons, are specialized to carry "messages" through an electrochemical process. The human brain has about 100 billion neurons ! Just simply think about the unconscious body process like digestion, breathing etc. The brain uses chemicals to transmit information; the computer uses electricity. Electrical Signals travel at high speeds in the nervous system, they travel even faster through the wires in a computer ! The average number of cells in the human body is between 75 and 100 trillion cells. 300 million cells in the human body die and are replaced (most of them) **every minute!**

Human eyes are one of the small example of God's amazing creation as we can think about the awesome creation of each and every parts in our body and the way it does work!

## The Eyes

---

As you focus on each word in this sentence, your eyes swing back and forth 100 times a second, and every second the retina performs **10 billion computer-like calculations**. The eyes can perceive more than 1 million simultaneous visual impressions, are able to discriminate among nearly 8 million gradations of color, can distinguish about 500 different shades of gray, and take in more information than the world's largest telescope. Each time the eye blinks, over 200 muscles move and you blink 25 times a minute or over 6 million times each year. The retina inside the eye covers about 650 square millimeters and contains some 137 million light-sensitive cells; 130 million rod cells for black and white vision and 7 million cone cells for color vision. To focus all this, the muscles of the eye move 100,000 times a day. An eye weighs 1.25 ounces. By the age of 60, our eyes have been exposed to more light energy than would be released by a nuclear blast. Sight accounts for 90 to 95 percent of all sensory perceptions. The human eye sees everything upside down, but the brain turns it right side up, with an average field of vision encompassing a 200-degree wide angle. Your ears and nose continue to grow throughout your entire life but your eyes are the same size from birth to death. A bird's eye takes up about 50 percent of its head; human eyes take up about 5 percent of the head. To be comparable to a bird's eyes, human go

vision, but lose all your depth perception. The only part of the human body that has no blood supply is the cornea; it takes its oxygen directly from the air.

Newborn babies are not blind but have approximately 20/50 vision and can easily discriminate between degrees of brightness. The daughters of a mother who is colorblind and a father who has normal vision will have normal vision. However, the sons will be colorblind. While 7 men in 100 have some form of colorblindness, only 1 woman in 1,000 suffers from it. The most common form of color blindness is a red-green deficiency. People are the only animals in the world who cry tears. Onion Tears are caused by an irritant in onions known as brominated molecules which react with the water on the eye to produce an acid which the eye removes by producing tears. Those stars and colors you see when you close and rub your eyes are called phosphenes. Two out of three adults in the United States wear glasses at some time. While reading a page of print, the eyes do not move continually across the page. They move in a series of jumps, called "fixations," from one clump of words to the next. Though more comfortable with daylight, given enough time to adjust, the human eye can, for a time, see almost as well as an owl's. The sensitivity of the human eye is so keen that on a clear, moonless night, a person standing on a mountain can see a match being struck as far as 50 miles away. Much to their amazement, astronauts in orbit were able to see the wakes of ships. When you

have a black eye, you have a bilateral periorbital hematoma. The pupil of the eye expands as much as 45 percent when a person looks at something pleasing.

### **“In the beginning God created the heavens and the earth” (Genesis 1:1)**

He stretches out the north over empty space; **He hangs the earth on nothing**. He binds up the water in His thick clouds, Yet the clouds are not broken under it. He covers the face of *His* throne, And spreads His cloud over it. **He drew a circular horizon** on the face of the waters, At the boundary of light and darkness. The pillars of heaven tremble, And are astonished at His rebuke. **He stirs up the sea with His power**, And by His understanding He breaks up the storm. By His Spirit He adorned the heavens; His hand pierced the fleeing serpent. Indeed these are the mere edges of His ways, **And how small a whisper we hear of Him! But the thunder of His power who can understand?” Job 26:7-14.**

There are billions of galaxies in the visible universe and still the **human brain is incapable to find** the fact that How big is the universe? Could it be infinitely large? If the universe has an edge, what is beyond the edge? And if the universe had a beginning, what was going on before that? Our experience of the everyday world does not prepare us to grasp the concept of an infinite universe. And yet, trying to imagine that the cosmos actually has a boundary does not make things any easier. That is

why King David said in the book of Psalm 131:1 “LORD, my heart is not haughty, Nor my eyes lofty. Neither do I concern myself with great matters, Nor with things **too profound for me.**”

The Universe is made up of **billions of galaxies**. Also out in space is background radiation from all the explosions and nuclear fusion going on within stars and nebulae. And, of course, the universe has a whole lot of empty space. In fact, there is so much space even between single stars in a galaxy that it is difficult to measure in miles or kilometers. Scientists use a distance measurement in space that is expressed as the distance light will travel in the course of a year - a light year. Everyone knows that the speed of light—186,000 miles (or 300,000 kilometers) per second. That means that light can travel 7.5 times around the entire world in just 1 second! In a year's time, light can travel six trillion miles (6,000,000,000,000). It takes over 4 years for the light from the nearest star to reach the Earth.

There is an edge to what we are able to see and could ever possibly see in the universe. Light travels at 300,000 kilometers per second. That's top speed in this universe—nothing can go faster—but it's relatively slow compared to the distances to be traveled. The nearest big galaxy to our Milky Way, the Andromeda galaxy, is two million light-years away. The most distant galaxies we can now see are 10 or 12 billion light-years away. We could never see a galaxy that is farther away in light travel time than the universe is old—an estimated 14 billion or

so years. Thus, we are surrounded by a "horizon" that we cannot look beyond—a horizon set by the distance that light can travel over the age of the universe.

This horizon describes the visible universe—a region some 28 billion light years in diameter. But what are the horizons of a civilization that inhabits the most distant galaxies we see? And what about galaxies at the limits of their vision? There is every reason to think that the universe extends a long way beyond the part of the universe we can see. In fact, a variety of observations suggest that our visible patch may be a small fraction—maybe an infinitely small fraction—of the whole universe. This view of the universe fits with the currently popular idea that the universe began with a vast expansion of size. The idea describes a kind of undirected energy present in the vacuum of space, called scalar fields, that somehow got channeled into a process called "inflation." By conservative estimates, the universe expanded so much during this period that something the size of an atom inflated to the size of a galaxy. If this grand idea is correct, then the universe is larger than we ever could have imagined.

**But the question remains: Is there a boundary, and if so, what lies in the voids beyond?** That is why King David said in the book of Psalm 131:1 "LORD, my heart is not haughty, Nor my eyes lofty. Neither do I concern myself with great matters, **Nor with things too profound for me.**" The Word of God declares

that “ **By faith we understand that the worlds were framed by the word of God**, so that the things which are seen were not made of things which are visible.” (Hebrews 11:3). **The fool has said in his heart, “There is no God.”** (Psalm 14:1) “For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead; so that they are without excuse:” (Romans 1:20). According to this remarkable verse of scripture, **there is a clear witness to the God of creation to be seen in the universe.** What is particularly significant is the fact that His Godhead is revealed in creation. “For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men, who suppress the truth in unrighteousness, because what may be known of God is manifest in them, for God has shown *it* to them. For since the creation of the world His invisible *attributes* are clearly seen, being understood by the things that are made, even His eternal power and Godhead, so that **they are without excuse**, because, although they knew God, they did not glorify *Him* as God, nor were thankful, but became futile in their thoughts, and their foolish hearts were darkened. Professing to be wise, they became fools (Romans 1:18-22). **The fool has said in his heart, “There is no God.”** (Psalm 14:1).

Oh, give thanks to the LORD, for *He is good!* For His mercy *endures forever.* Oh, give thanks to the God of gods! For His mercy *endures forever.* Oh, give thanks to the Lord of lords! For His mercy *endures*

forever: To Him who alone does great wonders, For His mercy endures forever; To Him who by wisdom made the heavens, For His mercy endures forever; To Him who laid out the earth above the waters, For His mercy endures forever; To Him who made great lights, For His mercy endures forever—The sun to rule by day, For His mercy endures forever; The moon and stars to rule by night, For His mercy endures forever. Psalm 136 :1-9

## ***WHERE ARE YOU GOING TO SPEND ETERNITY?***

The Scripture says, "He who believes in the Son (Jesus) has everlasting life; and he who does not believe the Son (Jesus) shall not see life, but the wrath of God abides on him" (John 3:36).

## ***JESUS CHRIST IS THE EVERLASTING ATONEMENT FOR THE SINS OF THE WHOLE WORLD***

Jesus Christ is the Lamb of God slain for the human sin from the foundation of the world in the spiritual realm and in the fullness of time, it was revealed in the physical form on the Cross of Calvary! The Lamb slain from the foundation of the world" (**Revelation 13:8**). "He is the image of the invisible God, the firstborn over all creation" (**Colossians 1:15**). "All things were made through Him, and without Him nothing was made that was made" (John 1:3).

## ***ONLY ONE WAY TO HEAVEN!!!***

Jesus said, "I am the way, the truth, and the life. No one comes to the Father except through Me (John 14:6). Jesus said, "I am the door. If anyone enters by Me, he will be saved..." (John 10:9). Jesus said, "I am the resurrection and the life. He who believes in Me, though he may die, he shall live" (John 11:25).

## ***THE PRAYER FOR ETERNAL LIFE!!!***

Dear Lord Jesus, I am a sinner, yet I believe You died on the cross for me, and that You rose from the dead on the third day. I repent of my sins. Forgive my sins, cleanse me with Your blood, and set me free from the bondage of sin. Come into my heart. By faith, I accept You as my Lord and my personal Saviour, and I will serve You always. In Jesus' name I pray, AMEN! Please Read John 3:1-36, Mark 16:16 & Matthew 3:8
